HUNTING AND HARVEST REPORT

PREFACE

Survey Approach

Resident and nonresident elk license or permit holders were randomly sampled from a population of all resident and nonresident elk license or permit holders in our license database. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

HUNTERS	The number of hunters who hunted one or more days
HUNTER DAYS	Sum of whole days or portions of days hunted
PERCENT SUCCESS	The number of successful hunters divided by the total number of hunters and multiplied by 100
LOWER	Lower confidence limit at a level of confidence of 80 percent
POINT	The estimated value
UPPER	Upper confidence limit at a level of confidence of 80 percent
GEN ELK	An abbreviation for general elk license
GEN B10	An abbreviation for general elk license included in the nonresident B10 combination license
SP	An abbreviation for special permit
UNKNOWN	A hunting or kill category where the season type was unknown or the activity illegal
UNKWN	A symbol for unknown used to designate unknown sex

Explanations

The elk hunting and harvest statistics are estimates made from a sample of 53,993 questionnaires representing about 44 percent of all elk license holders. Confidence-interval estimates are given for hunters, hunter days, and total harvest. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

All valid response data were used in the estimates even when some data fields were missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent elk kills which could not be associated with a particular license/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

TIME PERIOD OF KILL REPORT

PREFACE

Survey Approach

Resident and nonresident elk license holders were randomly sampled from a population of all resident and nonresident elk license holders in our license database. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

UNKWN	A symbol for unknown used to designate unknown time period of kill
GEN ELK	An abbreviation for general elk license
GEN B10	An abbreviation for nonresident Big Game Combination licnese type B10
SP	An abbreviation for special permit preceeding the special permit district/option designation
SPECIAL	Used in the regional or state summaries to designate combined special permits
UNKNOWN	A license category where the license used to take the elk was unknown

Explanations

The elk time period of kill statistics are from a sample of 53,993 questionnaires representing about 44 percent of all elk licnese holders. No expansions or estimates are given. The percentages are from the actual sample data collected. Sample number killed in each license category is given on the right side of each page. To obtain estimates of the actual number killed in a given time period, the percentages can be applied to the kill statistics in the hunting and harvest section of this report.

All valid response data were used in the analyses even when some data fields were missing. This is the reason for the various unknown categories given in the report. The unknown license type is used to represent elk kills which could not be associated with a particular licnese/season type. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region kills are still incorporated into the regional or state totals respectively.

ANTLER STATISTICS

PREFACE

Survey Approach

Resident and nonresident elk license holders were randomly sampled from a population of all resident and nonresident elk license holders in our license database. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for non-residents.

Definitions

ANTLER TYPE...The number of points on each side
FREQUENCY.....The number of occurances of the given antler type in the given hunting unit within the sample data obtained
PERCENT.......The percentage of the total represented by each frequency

Explanations

The elk antler point statistics are from a sample of 53,993 questionnaires representing about 44 percent of all elk licnese holders. No expansions or estimates are given. The frequencies and percentages are from the actual sample data collected for antlered elk. Total sample number killed in each hunting unit is given at the bottom of the frequency column. To obtain estimates of the actual number killed with a particular antler point count the percentages can be applied to the kill statistics for bulls in the hunting and harvest section of this report.

All valid response data were used in the analyses even when some data fields were missing. This is the reason for the unknown hunting unit categories given in the report. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region kills are still incorporated into the regional or state totals respectively.
